

## **ADDENDA**

as of 19 September 2015

### **Chapter 2**

Toward the end of Chapter 2, I summarize the work of the highly respected political scientist, Morris Fiorina, which concludes that the public is not as divided as is made out in the media (see pp. 54-56).

A 2015 study by the Chicago Council on Global Affairs more recently found a growing degree of division. I offer it here as a counterweight to Fiorina's work.
